REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of
Al Dhafra Insurance Company P.S.C.
Abu Dhabi, UAE

Introduction

We have reviewed the accompanying condensed statement of financial position of Al Dhafra Insurance Company P.S.C. (the "Company") as of 31 March 2010 and the related condensed statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended. Management of the Company is responsible for the preparation and presentation of this interim financial information in accordance with International Financial Reporting Standard IAS 34, "*Interim Financial Reporting*". Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with International Financial Reporting Standard IAS 34, "*Interim Financial Reporting*".

3 Summary of significant accounting policies

3.1 Basis of preparation

The condensed financial statementsis prepared in accordance with International Accounting Standard (IAS) No. 34, "*Interim Financial Reporting*" issued by the International Accounting Standard Board and also comply with the applicable requirements of the laws in the U.A.E.

The condensed financial statements are presented in U.A.E. Dirhams (AED) since that is the currency in which the majority of the Company's transactions are denominated.

The condensed financial statements has been prepared on the historical cost basis, except for the measurement at fair value of certain financial instruments and revaluation of investment properties.

The accounting policies, presentation and methods used in the preparation of these condensed financial statements are consistent with those used in the audited annual financial statements for the year ended 31 December 2009.

3.2 Change in accounting policy

The Company adopted IFRS 9 *Financial Instruments* (IFRS 9) in 2009 in advance of its effective date. The Company has chosen 31 December 2009 as its date of initial application and has elected not to restate comparative information in the year of initial application.

As required by the Securities and Commodities Authority ("SCA") notification dated 12 October 2008, accounting policies related to investment properties and financial instruments as disclosed in the annual financial statements have been disclosed in paragraph 3.3 to 3.4 below.

3.3 Investment properties

Investment properties, which are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes), are measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment property is measured at fair value. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

Notes to the condensed financial statements
for the period ended 31 March 2010 (continued)

2 Summary of significant accounting policies (continued)

3.4 Investment in securities

3.4.1 Investments at amortised cost

Debt instruments are measured at amortised cost if both of the following conditions are met:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs (except if they are designated as at FVTPL – see note 3.4.2 below). They are subsequently measured at amortised cost using the effective interest method less any impairment.

Subsequent to initial recognition, the Company is required to reclassify debt instruments from amortised cost to FVTPL if the objective of the business model changes so that the amortised cost criteria are no longer met.

3.4.2 Investments at FVTPL

Debt instrument financial assets that do not meet the amortised cost criteria described in note 3.4.1, or that meet the criteria but the entity has chosen to designate as at FVTPL at initial recognition, are measured at FVTPL. The Company has not designated a debt instrument financial asset as at FVTPL.

Subsequent to initial recognition, the Company is required to reclassify debt instruments from FVTPL to amortised cost if the objective of the business model changes so that the amortised cost criteria starts to be met and the instrument's contractual cash flows meet the amortised cost criteria. Reclassification of debt instruments designated as at FVTPL at initial recognition is not permitted.

Investments in equity instruments are mandatorily classified as at FVTPL, unless the Company designates an investment that is not held for trading as at fair value through other comprehensive income (FVTOCI) at initial recognition as described in note 3.4.3 below.

Financial assets at FVTPL are measured at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss is included in the 'net investment and other income' line item in the profit and loss. Fair value is determined with reference to quoted prices.

Dividend income on investments in equity instruments at FVTPL is recognised in profit or loss when the Company's right to receive the dividends is established in accordance with IAS 18 *Revenue* and is included in the 'net investment and other income' line item in the profit and loss.

Notes to the condensed financial statements
for the period ended 31 March 2010 (continued)

2 Summary of significant accounting policies (continued)

3.4 Investment in securities (continued)

3.4.3 Financial assets at FVTOCI

At initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investments revaluation reserve. Where the asset is disposed of, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is reclassified to retained earnings.

Dividends on these investments in equity instruments are recognised in profit or loss when the Company's right to receive the dividends is established in accordance with IAS 18 *Revenue*, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends earned are recognised in profit or loss and are included in the 'net investment and other income' line item in the profit and loss.

4 Property and equipment

Included in property and equipment at 31 March 2010 is capital work in progress amounting to AED 206,029 representing the costs incurred for development of online insurance and claims module for medical insurance which will be transferred to intangible assets when completed. All the Company's property and equipment are located in the United Arab Emirates.

The fair values of the Company's investment properties has been arrived at on the basis of open market valuations carried out by Malcolm Gaskill, Dubai, Loss Adjusters and Surveyors in their reports dated 31 December 2009 and 31 March 2009, respectively. The independent valuers are not connected with the Company. The valuers are members of various professional valuers' associations, and have appropriate qualifications and recent experience in the valuation of properties at the relevant locations. The valuation was determined by reference to recent prices for similar properties in the same location and similar condition and by discounting cash flow projections based on estimates of future cash flows.

The plots of land in Abu Dhabi and Al Ain on which investment properties are constructed were awarded to the Company free of cost by the Executive Council of the Government of Abu Dhabi on 21 June 1981 and 27 August 1983, respectively. The fair values of the plots of land in Abu Dhabi and Al Ain as at 31 December 2009 amounted to AED 40,600,000 and AED 16,000,000, respectively.

The construction of the Abu Dhabi head office building was completed during 1993. The Company occupies three floors of the building for its Head Office with the remaining fourteen floors available for letting to third parties.

The construction of the Al Ain office building was completed in 1993. The Company is utilizing the first and mezzanine floors for housing its Al Ain Branch office with the remaining space available for letting to third parties.

6 Intangible assets

Intangible assets primarily represent the cost of insurance computer system software purchased and additional costs incurred in the upgrading of the existing computer software system.

21 Segment information

The Company has adopted IFRS 8 "Operating Segments" with effect from 1 January 2009. IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. In contrast, the predecessor Standard (IAS 14 *Segment Reporting*) required an entity to identify two sets of segments (business and geographical), using a risks and rewards approach, with the entity's system of internal financial reporting to key management personnel' serving only as the starting point for the identification of such segments. This has not resulted in any significant change to the reportable segments presented by the Company as the segments reported by the Company was consistent with the internal reports provided to the Chief Operating Decision Maker.

For operating purposes, the Company is organised into two main business segments:

Underwriting of general insurance business – incorporating all classes of general insurance such as fire, marine, motor, medical, general accident and miscellaneous.

Investments – incorporating investments in marketable equity securities and investment funds, development bonds, term deposits with banks and investment properties and other securities.

Information regarding the Company's reportable segments is presented below:
